

# Services

Worldclass training and consulting for all your SAP projects.

Insite Objects prides itself on providing world class services to compliment our already successful software line. To reach employee performance goals, we believe in creating a system that works for your company. From traditional methods to the latest techniques, Insite can help you analyze, design, and deliver.

## The Insite Difference

We believe that Employee Performance = (Training + Support + Usability). To achieve this end, we have developed software and services that work together in a symbiotic relationship, yielding fast results and reducing overall time and budget costs. When you pair our offerings together you are getting the best in breed, worldwide. Contact us today and see for yourself how we can get you performing.

## Needs Analysis

Insite delivers the most accurate and detailed Needs Analysis available by using the best of the traditional methods combined with the latest technology. Need to target where you should train? Don't know what to budget for? Using historical data from your SAP system and standard techniques, Insite Objects can ensure your project is right on target.

## Usage Analysis

Get a factual view of the historical usage of your SAP system. Insite Objects' non-intrusive technology can tell you the who, how, and why, in less than 72 hours. Say goodbye to extensive surveys and expensive interviews. Get an accurate, factual view of how many users you have, who is using the system, how they are using the system, and what parts of SAP are accessed most.

## Instructional Design

Insite Objects provides expert instructors schooled on the success of critical processes. Using both experience and technology, we can help you deliver your education, and set up continued support and learning, so your process can only keep improving.

## Subject Matter Experts

Need something particular? Insite Objects can provide the focused, experienced consultants well trained in your area of need. Our group can ensure high-quality, on-time, and on-budget work so you can get performing right away.

## Custom Project Team Training

At Insite Objects, our trainers are recognized by our clients as being the best in the market at transferring knowledge. By understanding both the nature of training and support, and the technology behind it, we bring to the table the tools to perform on multiple levels. Our track record demonstrates Insite Objects' value to our SAP clients. Because of this, we are a preferred supplier of Project Team Training and Partner Academy Trainers to SAP subsidiaries around the world.

## Management Consulting

We have helped hundreds of firms, big and small, with the difficult task of developing a corporate strategy and plan to improve Employee Performance and achieve ERP goals. Reduce confusion, consolidate, plan, and implement a path of success. Insite Objects can get you there.
